1 Time and Place

The meeting 3 for the Software Engineering and Project was held in Ingkarni Wardli Building, Room 4.62 at 3:30pm on Monday 20th August 2012.

2 Quorum Announcement

The chairman announced that a quorum of the group was present, and that the meeting, having been duly convened, was ready to proceed with its topic.

3 Summary of Previous Meeting

After the second meeting, the basic movement function of robot has been implement and tested by our group members. The basic GUI appearance has been drawn. Team has finished the SRS document at the moment.

4 Introduction

4.1 Current Project Status

Chair Yufeng Bai did a presentation of the project schedule. Including:

- Introduction of SRS
- How do we designed the SRS
- Scope of the project
- User requirements
- External interface requirements
- Other requirements

4.2 Client Feedback

Client gave some suggestions of the current project:

- Our development team need to consider the latency problem of the robot, an acceptable latency is 300ms.
- The contrast ratio of GUI need a little improvement, so that it can be used better under strong sunshine. (like using the robot in Barr Smith Lawn)
- We need to pay more attention on spelling check and error detection of the later documentation.

- More international mark need to be used in the GUI design part, replace some of the button icons and word labels with international mark can improve the quality of the user interface. (The less English, the better look GUI will be)

4.3 Introduction Summary

- A advanced requirement have been taken to account: User/Developer Mode change.
- The robot's move speed should be limited to a certain level to ensure accuracy and safety.

5 Demonstrate the Project Gantt Chart

Our team demonstrated the Project Gantt Chart to the client and the feedback is positive.

6 Adjournment

The next meeting is a group meeting and will be held in Ingkarni Wardli Building, Room 4.62 at 3:30pm on Monday 27th August 2012.
