2 Quorum Announcement

The chairman announced that a quorum of the group was present, and that the meeting, having been duly convened, was ready to proceed with its topic.

3 Summary of Previous Meeting

This is the first meeting.

4 Group Milestone

4.1 Introduction

1. Chair David gave the presentation about the content of the poster which we made last week, including the name and the main position of each group member.
2. Each group member give a brief introduction about himself including the name, major and advantages

4.2 client requirement

1. the robot can not walk out of map.
2. we need to keep tracking and avoid block.
3. robot walk in normal speed, when the sensor detect the wall, robot will slow down.
4. robot can not push the wall and colliding is not permitted.
5. robot should find the starting position.
6. software should support the bigger map. For this project, we need to operate the robot in fixed size(less than A1)
7. if robot run out of power, it will go back to where it start.
8. robot is not allowed to damage.
9. power saving module is better(optional).
10. It is better if the robot can find the shortest way to reach destination(optional).
11. We need to save and load map.
12. the robot should implements the manual and automatic control.

4.3 notification

1. Client give us the lock key and the robot module.
2. Topic is presented in CS forum, choosing one topic for next meeting.
3. Everyone has the chance to be the chair.

5 Individual Milestone Report

none

6 Project Administration

none

7 Requirements Elicitation

none
